

## Will furniture or objects need to be moved during the photo shoot?

Written by Administrator

---

Frequently we may need some objects or furniture to be moved in order to get the best possible shooting conditions. If furniture or objects need to be moved, we will request it to be moved by you.

[span class=attention]For liability purposes, we will not touch or move anything unless willing and explicitly authorized to do so in the form of a waiver, in which case, must be signed by the property owner.[/span]
